

World Digestive Health Day (WDHD)
29 May 2018

Viral Hepatitis, B and C: Lift the Global Burden

Viral Hepatitis, B and C

SEEKING TO...

- ➔ Increase awareness of Viral Hepatitis, B and C, especially in countries where Viral Hepatitis, B and C, is being newly or increasingly diagnosed, by providing a better understanding and recognition of the disease as a global burden.
- ➔ Provide hepatologists, gastroenterologists, their patients, and the lay public with an understanding of the latest basic and clinical research on Viral Hepatitis, B and C.
- ➔ Translate research into clinical practice to discuss and inform physicians, pharmacists, allied health professionals, healthcare payers and the public of the prevalence, risk factors, causes and methods of transmission of Viral Hepatitis, B and C.
- ➔ Encourage dialogue on Viral Hepatitis B, its signs, symptoms, and availability of the HBV vaccine as the primary means of prevention.
- ➔ Encourage dialogue on Viral Hepatitis C, its signs, symptoms, and the curability of the HCV.
- ➔ Ensure that patients receive appropriate information about the diagnosis and treatment of Viral Hepatitis, B and C.
- ➔ Develop education and training materials to define Viral Hepatitis, B and C, as a global initiative from the WGO perspective.
- ➔ In 2018, examine the feasibility of introducing Viral Hepatitis, B and C, training and treatment into the WGO Training Centers.

Partner with WGO and Plan Your WDHD 2018 Event Today!
