Hepatitis C: State of Medicaid Access, 2017

HEPATITIS C AND OPIOID INJECTION ROSE DRAMATICALLY IN YOUNGER AMERICANS FROM 2004-2014

“Hepatitis C is a deadly, common, and often invisible result of America’s opioid crisis,” said Jonathan Mermin, M.D., M.P.H., director of CDC’s National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention. “By testing people who inject drugs for hepatitis C infection, treating those who test positive, and preventing new transmissions, we can mitigate some of the effects of the nation’s devastating opioid crisis and save lives.”

TREATMENT AND PREVENTION SERVICES²

Treatment and Prevention Services ²	District	State
Syringe Exchange Programs	1	42
Facilities providing substance abuse services	110	1,127
