*“Hepatitis C is a deadly, common, and often invisible result of America’s opioid crisis,” said Jonathan Mermin, M.D., M.P.H., director of CDC’s National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention. “By testing people who inject drugs for hepatitis C infection, treating those who test positive, and preventing new transmissions, we can mitigate some of the effects of the nation’s devastating opioid crisis and save lives.”*

## TREATMENT AND PREVENTION SERVICES<sup>2</sup>

Treatment and Prevention Services <sup>2</sup>	District	State
Syringe Exchange Programs	2	20
Facilities providing substance abuse services	47	360
