DRUG RELATED DEATHS²

STATE OPIOID POLICIES²

Opioid Policy Provision	Status
Syringe Exchange Program Legality	Locally Permitted
Prescribers required to check a prescription drug monitoring program before prescribing controlled substances	Not Required
Jurisdictions submitted request for CDC Consultation demonstrating high risk of HCV or HIV outbreak due to drug use	State completed

STATE HCV MEDICAID POLICIES²

HCV Medicaid Policy Provision	Status
Liver damage restrictions	Fee-For-Service (FFS) and Managed Care Organizations (MCOs) do not have any liver damage restrictions.
Sobriety restrictions	FFS and MCOs require beneficiaries with a history of alcohol or substance use to be abstinent six months prior to and during treatment. A patient with a recent history of substance use must be an active participant in a treatment program.

Hepatitis C: State of Medicaid Access, 2017

HEPATITIS C AND OPIOID INJECTION ROSE DRAMATICALLY IN YOUNGER AMERICANS FROM 2004-2014

“Hepatitis C is a deadly, common, and often invisible result of America’s opioid crisis,” said Jonathan Mermin, M.D., M.P.H., director of CDC’s National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention. “By testing people who inject drugs for hepatitis C infection, treating those who test positive, and preventing new transmissions, we can mitigate some of the effects of the nation’s devastating opioid crisis and save lives.”

Treatment and Prevention Services ²	#
Syringe Exchange Programs	15
Facilities providing substance abuse services	244
Facilities providing some Medication Assisted Treatment (MAT)	95 ...of which 85 accept Medicaid

HEALTHCARE ACCESS²

Healthcare Access	WI	US
Percent of People without Health Insurance	7.2	11.7
Percent Needing but Not Receiving Addiction Treatment	89.29	88.89
Number of 30 Days Supply of Opioids per Part D Enrollee	2.11	2.08
Opioids prescribed per capita, in morphine mg equivalents (MME)	640.73	642.05
